We are the Hybrid Hornets, a FIRST robotics team based out of Kearsley High School in Flint, Michigan that was started in 2014. Our team is made up of 15 high school students and 5 mentors. FIRST (For Inspiration and Recognition of Science and Technology) is a program that encourages students to develop their problem solving skills, knowledge in STEAM, and ability to thrive as a team.

As part of the FIRST robotics program, we are responsible for many significant expenses. These include, but are not limited to: registrations; travel expenses; and team uniforms and spirit wear. We also use wood, metal, and electronic components throughout our competition season. To help offset these costs, we are reaching out to local businesses to sponsor the Hybrid Hornets robotics team. We have several sponsorship levels available for businesses that donate money or supplies.

Level	Amount	Rewards
Platinum	\$2,500+	Name and logo on robot All gold perks
Gold	\$1,000 - \$2,499	Logo on team shirt All silver perks
Silver	\$500 - \$999	Name on team shirt All bronze perks
Bronze	\$1 - 499	Name on website Thank you on social media

Thank you again for your time and sponsorship consideration. Please do not hesitate to contact us if you have any questions or concerns. The Kearsley High School Robotics Team – Hybrid Hornets looks forward to hearing from you soon!

Sincerely,
The Hybrid Hornets FRC #5150
